

# IRIDIUM 9 mm

ROPE

Ref. 2808

SELF RESCUE, TEAM RESCUE, ROPE ACCESS

Type B semi-static rope designed for technical activities where lightweight and minimal dimensions are a must. The small diameter is balanced with a compact sheath construction of 40 carriers and twisted yarns for increased abrasion resistance.

**Polyamide Sheath**  
with 40 carrier

**Polyamide Core**

White/Black:

**501:** 50 m

**1001:** 100 m

**2001:** 200 m

Sheath is made with **twisted yarn**, which improve abrasion, resistance and durability of the rope

For 200 m length  
**replacement labels included!**

Can be used to replace old labels  
or for individual identification
